Professional Summary

Data analyst with hands-on experience in operations for the U.S. and Canadian markets. I combine SQL and Python analysis with a business-operations mindset: I find where a process loses time or money, measure it, and present the result in clear language. I deliver in Spanish, English and French, and I am available for freelance projects in data analysis, reporting and process improvement.

Core Skills

- **Data analysis:** SQL (CTEs, funnel and cohort retention analysis), Python, Microsoft Excel
- **Operations and business tools:** SAP, Sigo, CRM, BioConnect
- **Business expertise:** Order to Cash, claims management, audits, process optimization, issue resolution
- **Soft skills:** problem solving, clear communication with non-technical teams, adaptability, attention to detail
- **Languages:** Spanish (native), English (C1), French (B2), German (A1)

Freelance Services

- **Data analysis and reporting:** cleaning, exploring and summarizing your data into findings you can act on
- **SQL analysis:** funnel, retention and cohort analysis, custom queries and metric tracking
- **Operations and process analysis:** finding bottlenecks in workflows and measuring the impact of improvements
- **Multilingual deliverables:** reports and documentation in Spanish, English and French

Selected Projects

- **Sales funnel analysis (SQL):** conversion analysis by stage using CTEs on 2025 e-commerce data, comparing a baseline against a simulated scenario to locate where users drop off.
- **Cohort retention analysis (SQL):** monthly cohort retention on 2025 e-commerce data to show how long customers stay active after their first purchase.
- **Feedback sentiment classifier (Python web app):** reads a CSV of customer feedback and labels each comment as Positive, Negative, Neutral or Other.
